H. & S. Beer's Letter.

(Special to The Post.)

New Orleans, La. January 7.—As early liverpool advices were more favorable in and advanced 3 additional on fresh buying and advanced 3 additional on fresh buying.

The issuance of the Texas statement about this time was construed bearishly and caused a decline of 7, but investment purchasers again can prices up 7. The small demand for spots and advices from Texas, reporting considerable cotton to pick in rthern sections, coupled to the prospect of more liberal receipts, occasioned a break of 13 from the top, making the net loss points on the day.

Secretary Hester's Texas statement shows hat the amount delivered out of that State to January 1 was 1.914,000, against 1,045,000 last year, 2,382,00 year before last; therefore, as from January 1 to Au-DRUGS AND CHEMICALS.

per cent is applied it points to a crep of ROSTOOO. In other words, the state ment is construed as pointing to a crop of ROSTOOO. For Texas. There has been more difference of colution on the Texas outturn than any other State, many estimating that the rield would not be over 2,550,600. These figures demonstrate the absurdity of such claims. These ideas may have a tendency to check the bullish feeling if tacked up by increased receipts. Summing up the situation, we think well of realizing with a view of replacing on casy necteds, as the chances are that the movement will increase next week.
